

Kielder Birds of Prey Centre

Leaplish Waterside Park, Kielder

Adoption Scheme

It will come as no surprise that running a Birds of Prey Centre is a costly business, what may come as a surprise, however, is that we receive no funding from any outside agencies such as the Lottery or the Government.

Visitors often ask how they can help and for this reason we introduced our Adoption Scheme. All proceeds received from adoptions go directly towards the upkeep of the birds. This includes food, accommodation and any necessary veterinary costs. The bird you choose to adopt will at all times remain under the care and ownership of Kielder Water Birds of Prey Centre.

When you adopt one of our birds you will receive a photograph and a certificate showing your name and the name of the bird. A similar certificate will be displayed within the Centre.
